

Welcome

Continuous Quality Improvement Program...

# CQI PARTNER

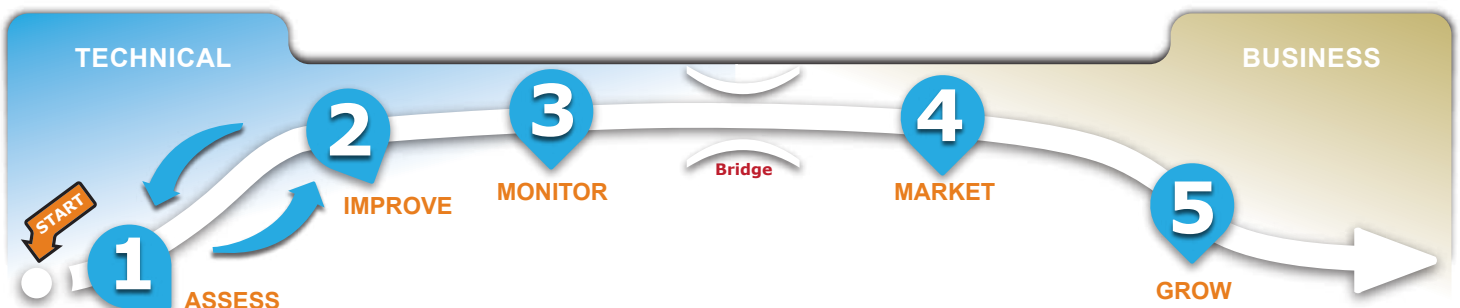

## CQI Member Benefits

When you become engaged in the CQI program, you will have the opportunity to take advantage of many resources, tools and partnerships that DynaLabs have brought together to enhance your pharmacy.

- **Unique Data Reports**
- **Dynamic Web Based Platform**
- **Testing Performance Comparisons of Like Pharmacies**
- **Marketing Tools & Presentations**
- **Sales Training**
- **Networking and Connections into the Market**

## Road Map

The CQI Partner® program is not a “one time and your done” event, but a continuous approach to quality improvement within your pharmacy. CQI Partners follow a proven roadmap, with assessment and monitoring programs and tools targeted at clarifying expectations and measuring progress. Each phase builds on the last, and advances each CQI Partner® to a point where they are using quality to market and grow their business.

Call 888-396-2522 or email us at [support@dynalabs.us](mailto:support@dynalabs.us) to learn more about the CQI Partner Program today.

## Program Overview

The goal is to help our CQI Partners® use quality as a means to grow their business. This is accomplished by establishing a culture of continuous improvement that uses a cyclical process of testing, analysis and consulting, to continuously improve on products, processes and people.

### CORE ELEMENTS OF THE PROGRAM

#### **Analytical Testing**

We work with our CQI Partners® to establish effective testing programs targeted at identifying and monitoring current levels of quality.

#### **Data Analysis**

We help our CQI Partners® analyze data generated by the testing programs, and identify opportunities to improve products, processes and people within the pharmacy.

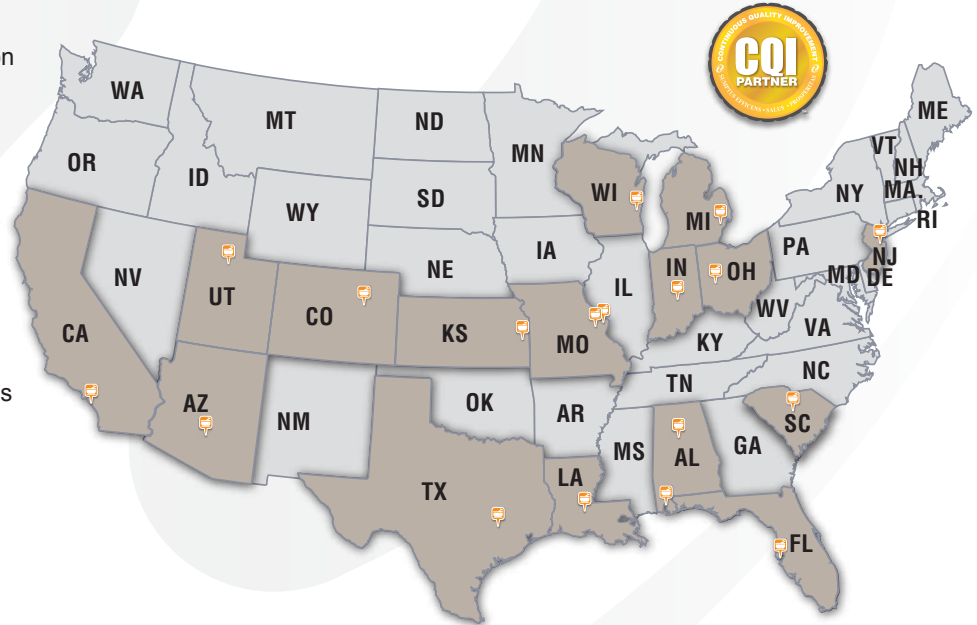

#### **Consulting**

We utilize our extensive experience in quality improvement, marketing and networking to implement systematic improvements, measure cost savings, and help our CQI Partners® market their quality and grow revenues.

## CQI PARTNERS ACROSS THE NATION

The CQI Partner Program has a systematic approach to certifying pharmacies. Certification is dictated by process validation in each pharmacy. In order to reserve a place on the CQI Partner Map the processes in the pharmacy must be validated.

The Centers of Excellence CQI Partner Map gives compounders a unique business opportunity to put their pharmacy in the eye of hospitals and physicians in their area as well as across the nation, to make connections and generate more revenue.

## Business Impact

The goal of the CQI program® is to continually improve the quality of compounds produced by the pharmacy. High quality positively impacts the business in the following ways.

- **Lowers Risk:** Minimizes the probability of harming a patient and the associated costs.
- **Lowers Cost:** Minimizes the number of discards and reworks.
- **Improves Efficiency:** Resources will be used in more productive ways.
- **Grows Revenue:** Quality sells.

These attributes will gain momentum over time and will independently or collectively have an impact on your pharmacy.
