

Pricing is based on active, level of effort, and compound form and is dependent on Service Level Agreements; the tier placement below is for Injectable Solutions only.

Active	Method Type	Stability Indicating**	Standard Type	Method Number	Target Stability***	Minimum Amount Required****	Tier
Tacrolimus	HPLC/ UHPLC	Yes	USP	4445	N/A	5mL	Tier 2
Tazobactam Sodium	HPLC/ UHPLC	Yes	USP	4348	90	5mL	Tier 2
Tazobactam	HPLC/ UHPLC	Yes	USP	4348	90	5mL	Tier 2
Testosterone	HPLC/ UHPLC	Yes	USP	4222	180	5mL	Tier 1
Testosterone Cypionate	HPLC/ UHPLC	Yes	USP	4240	180	5mL	Tier 1
Testosterone Enanthate	HPLC/ UHPLC	Yes	USP	4243	<b>180</b>	5mL	Tier 1
Testosterone Propionate	HPLC/ UHPLC	Yes	USP	4244	<b>120</b>	5mL	Tier 1
Tetracaine HCL	HPLC/ UHPLC	Yes	USP	4074	180	5mL	Tier 1
Tetracaine	HPLC/ UHPLC	Yes	USP	4074	<b>60</b>	5mL	Tier 1
Thiamine HCL	HPLC/ UHPLC	Yes	USP	4215	180	5mL	Tier 1
Thiamine	HPLC/ UHPLC	Yes	USP	4215	180	5mL	Tier 1
Tramadol HCL	HPLC/ UHPLC	Yes	USP	4273	<b>90</b>	5mL	Tier 1
Tramadol	HPLC/ UHPLC	Yes	USP	4273	<b>90</b>	5mL	Tier 1
Triamcinolone Acetonide	HPLC/ UHPLC	Yes	USP	4320	90	5mL	Tier 2
Triamcinolone Diacetate	HPLC/ UHPLC	Yes	USP	4277	<b>0</b>	5mL	Tier 2
Tromethamine	Titration	No	Volumetric Solution	5014 and 5015	N/A	Nominally Equivalent to 500mg of Tromethamine	Tier 2
Tropicamide	HPLC/ UHPLC	Yes	USP	4287	365	5mL	Tier 1
Vancomycin HCL	HPLC/ UHPLC	Yes	USP	4090	90	5mL	Tier 2
Vancomycin	HPLC/ UHPLC	Yes	USP	4090	90	5mL	Tier 2
Vecuronium Bromide	HPLC/ UHPLC	Yes	USP	4242	N/A	5mL	Tier 2
Verapamil	HPLC/ UHPLC	Yes	USP	4323	90	5mL	Tier 1
Zosyn (Piperacillin and Tazobactam)	HPLC/ UHPLC	Yes	USP		90	5mL each active	Tier 2
Tazobactam Sodium	HPLC/ UHPLC	Yes	USP	4348	90	5mL	Tier 2
Tazobactam	HPLC/ UHPLC	Yes	USP	4348	90	5mL	Tier 2
Testosterone	HPLC/ UHPLC	Yes	USP	4222	180	5mL	Tier 1

Verapamil	HPLC/ UHPLC	Yes	USP	4323	90	5mL	Tier 1
Zosyn (Piperacillin and Tazobactam)	HPLC/ UHPLC	Yes	USP		90	5mL each active	Tier 2

\*Method Feasibility has been confirmed and the Method Development is in progress, the target for completion of these methods is 2018. If you have a need for any of these actives sooner or any actives not listed, please email [MarketingTechServices@dynalabs.us](mailto:MarketingTechServices@dynalabs.us) for Feasibility Quote or a Method Development Quote.

Pricing is based on active, level of effort, and compound form and is dependent on Service Level Agreements; the tier placement below is for Injectable Solutions only.

\*\*Stability Indicating Methods are validated at the API level according to USP 1225 Category 1, complete with degradation studies. Validation Extension is still required for each formulation to meet the specificity requirement. For methodology that is not stability indicating due to limitations to separate degradants (e.g. IC and Titration) please contact [MarketingTechServices@dynalabs.us](mailto:MarketingTechServices@dynalabs.us) for information about Stability Profile testing.

\*\*\*Bold and Italics Target Stability is not confirmed. Please email [MarketingTechServices@dynalabs.us](mailto:MarketingTechServices@dynalabs.us) for more information and for suggested storage conditions.

\*\*\*\*For all titrations the amount of sample required is concentration based and the amount of material listed is based on the amount of active required in some cases. Please email [MarketingTechServices@dynalabs.us](mailto:MarketingTechServices@dynalabs.us)

This list is for information only; if there are any questions or concerns about the relevance of the data conveyed or the impact the information to your product please email [MarketingTechServices@dynalabs.us](mailto:MarketingTechServices@dynalabs.us) with questions.
